Marquee Lighting

Tents and Events

Marquee Lighting

We have a wide range of lighting options available to suit any and every type of event. From standard chandeliers to complex entertainment lighting (which can include an operator if you need one), we can supply the following for our own stock:

- Modern White Globe Chandeliers
- Polished Brass Chandeliers
- Crystal Chandeliers
- LED Colour Uplighters
- Festoon Lighting
- Dance Floor Lighting
- Full Entertainment Lighting
- LED Flood Lighting

Modern White Globe Chandeliers

Globe chandeliers are our standard finish in a fully finished marquee. These modern globe chandeliers are fully dimmable and are ideal for weddings, corporate and party marquees. They are the most cost effective lighting option that we offer.

Crystal Chandeliers

Our crystal chandeliers are luxurious, delicate and simply stunning. These 12 arm chandeliers add a classic and refined finish to a marquee.

Brass Chandeliers

For clients who prefer a classic look we can offer an 8 arm brass chandelier with candle bulbs. These lights are also dimmable, like the globe chandeliers, to give an intimate evening ambience or classic look.

Festoon Lighting

Festoon lighting offers an alternative to chandeliers in a marquee and give a more informal, laid back look. They are ideal for weddings and party marquees that want that outdoor festival look and feel. These are an extremely popular lighting option.

Pea Lamp Roof Canopy

Our pea lamp roof canopy offers an absolutely stunning effect in a marquee, particularly for weddings. This fully dimmable fairy light ceiling includes 8 x one metre strips of pea lamps which can be installed as one intense canopy or spread throughout the ceiling in one metre strips. The full canopy is often married up with our festoon lights and placed side by side over the marquee ceiling for a dazzling effect.

Entertainment Lighting

We offer a wide range of dance floor and entertainment lighting from simple packages for small family occasions to full entertainment lighting with a lighting designer and operator throughout the event. Bespoke packages can be designed to your event - whatever the specification.

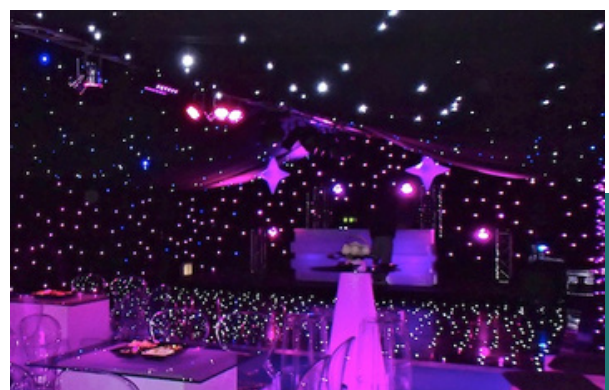

Basic Dance Floor Lighting

Basic Dance Floor packages are available ranging from a 6m truss with 12 LED spotlights in our smaller structures to a 10m truss and 20m LED spotlights in the large structures.

Starlight Roof Canopy

For party marquees, nightclub areas in corporate or event wedding marquees, our black star cloths are ideal. They are complemented by black out walls and entertainment lighting.

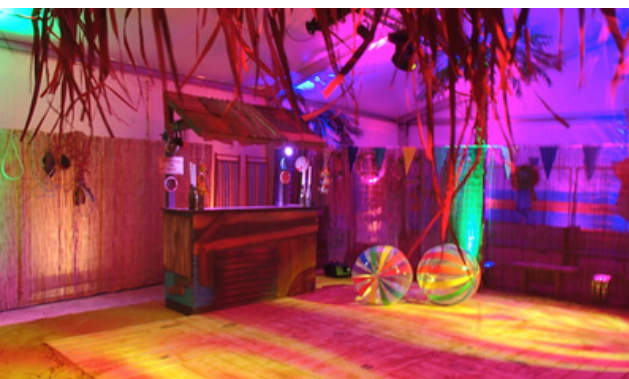

LED Uplighters

Our LED Uplighters can be a static colour or change to any colour throughout your event, even to the beat of the music! They are easily altered with a small remote control and are ideal for creating a different atmosphere in an evening event.

Whatever your event, we have the perfect lighting solution
